PROFILE

I'm Muhammad Sufiyan, a passionate and results-driven WordPress Developer and Web Designer with over 2 years of experience. I specialize in creating high-converting, responsive websites for individuals, startups, and small businesses. With 100+ completed projects and a strong command of tools like Elementor, Yoast SEO, WooCommerce, Forminator, and others. I bring ideas to life with clean design and smart functionality.

My focus is on building user-friendly digital experiences that drive growth, boost visibility, and ensure performance. Whether it's a business website, an eCommerce store, or SEO optimization — I'm here to deliver results that matter.

WORK EXPERIENCE

Epic Institute

2024

Wordpress Webdesign Design

- Designed and developed responsive WordPress websites using Elementor and Figma.
- Created visually engaging layouts tailored to client goals and branding guidelines.
- Collaborated with developers and designers to ensure optimal performance and UI/UX standards.
- Delivered high-converting designs while maintaining consistency and creativity across projects.

Filenod

2024 TO 2025

Web Designer & Digital Specialist

- Designed and developed custom websites using WordPress, Elementor, and WooCommerce.
- Executed email marketing campaigns using tools like Brevo (Sendinblue), creating templates, managing lists, and analyzing results.
- Implemented on-page SEO and speed optimization techniques to boost search visibility and performance.
- Managed monthly website maintenance tasks including security updates, backups, and plugin optimization.
- Collaborated with clients to understand their goals and translate them into high-performing digital solutions.
